

# RAIN OF LIGHT

**BENEATH A POROUS DOME,  
DAYLIGHT BECOMES A  
CULTURAL MEDIUM.**

The roof does not simply shelter the museum;  
it filters the sky into a moving field of light.

## 01 PERFORATED CANOPY

Four steel layers break the  
roof into apertures.

## 02 FILTERED DAYLIGHT

Sunlight becomes a  
moving  
field across the floor.
